Dear Ms. Hesse,

It was music to my ears to learn that there can be a settlement soon in the antitrust case against Microsoft Corporation!

I am confident that this settlement will have a positive impact on the ailing U.S. economy. Many of the investments citizens like myself have are directly related to the high-tech market place.

With less government intrusion into private business and more good old-fashioned competition in the marketplace, we can look forward to new growth in the U.S. economy. Enough taxpayer dollars have already been spent attempting to fix a problem that never existed.

I appreciate your consideration of my view as you deliberate. It is important for you to support this settlement.

Sincerely,
